

LACOBEL[®] T MATELAC[™] T

Temperable back-painted glass
in gloss or satin finish

AGC LACOBEL T and MATELAC T provide architects and designers an exciting selection of temperable decorative glass products for endless imaginative applications – interior and exterior. The back surface of both products features a durable, factory-applied industrial paint in one of 11 enduring colors. LACOBEL T's front surface retains the natural high gloss of glass, whereas the acid-etched front surface of MATELAC T provides a soft satin finish.

AGC Glass North America, the world's largest glass manufacturer, is committed to providing the widest range of products with world-class customer service. For easy, convenient, and fast access LACOBEL T and MATELAC T are available in strategically-located AGC facilities.

What's special about them?

What this means for you?

Factory back-painted

- Provides ultimate uniformity and consistency
- Eliminates the hassle of manual painting before or after tempering
- Can be immediately cut and tempered

High-quality industrial paint

- Highly durable and suitable for exterior applications
- Highest quality for up-close interior applications
- Choice of 10 long-trending colors
- UV-resistance prevents discoloration
- Moisture resistance allows usage in humid areas (bathrooms, kitchens, etc.)

Temperable

- Strong and safe, withstands thermal shock
- High resistance to impact and scratches
- Provides more flexibility for fabricators to manage production and inventory, resulting in faster response to market needs

Environmentally friendly

- Low Volatile Organic Compounds (VOCs)
- Cradle to Cradle Certified[™] Bronze
